[+ Add SSL/TLS Certificate](#) [View Certificates](#) [Secure Webmail](#) [Remove](#)

No items found.

- Điền tên cho SSL tại mục "Certificate name" (nên trùng với domain để dễ quản lý)
- Add SSL/TLS Certificate

Certificate name*

Settings

Use this form to generate a request for a certificate, to buy a certificate from your provider, or to generate a self-signed certificate.

A request is a CSR file that contains the information about your domain that you specified in the form. You can submit the request to a certification authority for issuing a certificate for you. You will then upload it using one of the upload forms below.

A self-signed certificate is an identity certificate signed by its own creator. If you use such a certificate, it means that you yourself verify your sites' identity. Although self-signed certificates allow the usage of SSL/TLS, they are trusted less, and considered as less secure.

4. Chọn Upload the certificate as text để copy trực tiếp text hoặc Upload the certificate files để upload các file chứng chỉ nhà cung cấp đã gửi cho.

Copy 3 đoạn mã nhà cung cấp gửi cho bạn tương ứng với các ô.

Chú ý: private key bắt đầu bằng -----BEGIN PRIVATE KEY----- và kết thúc bằng -----END PRIVATE KEY-----

Certificate và ca certificate bắt đầu bằng -----BEGIN CERTIFICATE----- kết thúc bằng -----END CERTIFICATE-----

Private key (*.key) *

Certificate (*.crt) *

CA certificate (*.ca.crt)

Upload the certificate files

Use this form to upload the components of a certificate as constituent files.

Private key (*.key) * nhanhoa.com.key

Certificate (*.crt) * nhanhoa.com.cer

CA certificate (*.ca.crt) nhanhoa.comca.cer

Sau khi copy xong hoặc chọn file upload thì click vào Upload Certificate

5. Upload thành công chứng chỉ sẽ hiển thị

<input type="button" value="Add SSL/TLS Certificate"/>	<input type="button" value="View Certificates"/>	<input type="button" value="Secure Webmail"/>	<input type="button" value="Remove"/>
